

**Night Project**  
Speech Assignment Sheet

**Overview**

Instead of a typical speech where we each get in front of the class and talk about our project (and in the process wasting a bunch of time), you're going to record a video of your speech, send it to me, and I'll put it up for everyone to view.

This speech is essentially your iSearch Paper out loud. You shouldn't have to prepare too much for it (although there should be proof of time involved); and since it's a video, you can mess up as much as you want and just record a new version.

**Requirements**

1. One video per group
2. Must be at least two minutes long
3. Every group member must contribute to the video
4. Show the 3D Project
5. Recall the various parts of your iSearch Paper

**Part of a Whole**

In order to do this speech, you're going to have to have your 3D Project completed and you're going to have to have your iSearch Paper completed. Each of these parts will be prominently displayed in the video. Because of these requirements, you're given extra time to complete this part of the project.

**Grading**

Each person in the group will receive the same grade based on the Speech Rubric.
