

Reflections Practice

A.) Graph the image of the figure using the transformation given. B.) Write the coordinates of the preimage C.) Write the coordinates of the image

1) reflection across the y-axis

2) reflection across $y = -3$

3) reflection across $x = 1$

4) reflection across $y = -3$

5) reflection across $x = -1$

6) reflection across $x = -1$

7) reflection across $x = -3$

8) reflection across $y = -3$

9) reflection across the x-axis

10) reflection across $x = -2$

11) reflection across the x-axis

12) reflection across $x = -1$

A.) Write the coordinates of the preimage B.) Write the coordinates of the image C.) Write a rule for the given transformation
